## PROFESSIONAL SUMMARY

MCA student with hands-on experience in Python, SQL, MySQL, Power BI, Excel, and Data Analytics. Developed end-to-end analytics projects involving data collection, data cleaning, exploratory data analysis (EDA), SQL-based business insights, and interactive Power BI dashboards. Proficient in Pandas, NumPy, Matplotlib, Seaborn, Git, and GitHub. Seeking an entry-level Data Analyst role.

## TECHNICAL SKILLS

- **Programming:** Python, SQL
- **Data Analysis:** Pandas, NumPy, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Business Insights
- **Visualization:** Power BI, Matplotlib, Seaborn
- **Database:** MySQL, SQL Queries, Joins, Group By, Subqueries
- **Tools:** Excel, Jupyter Notebook, Git, GitHub
- **Core Concepts & Languages:** Java, C, C++, HTML5, CSS3, JavaScript

## PROJECTS

### Swiggy Restaurant Data Analysis

[\[github.com/nrai30802-code/Swiggy-Data-Analysis\]](https://github.com/nrai30802-code/Swiggy-Data-Analysis)

- Cleaned and transformed restaurant transactional data using Python, Pandas, and NumPy.
- Performed EDA on customer ratings, cuisines, pricing, and locations to model dining behaviors.
- Created charts using Matplotlib and Seaborn to visualize pricing brackets and regional trends.
- Built an interactive Power BI dashboard for multi-city restaurant performance analysis.
- Generated business insights utilizing DAX to support vendor pricing alignments.

**Tools:** Python, SQL, Power BI, Excel, Pandas, NumPy, Matplotlib, Seaborn

### Superstore Sales & Profitability Analysis

[\[github.com/nrai30802-code/Superstore-Data-Analysis\]](https://github.com/nrai30802-code/Superstore-Data-Analysis)

- Analyzed retail transaction data to evaluate regional revenue trends, categories, and shipping delays.
- Performed data cleaning and EDA to identify sales trends and category growth indexes.
- Designed an interactive Power BI dashboard to visualize profit margins and customer segments.
- Utilized advanced DAX queries to track YoY sales performance and discount impacts.
- Generated business insights to identify underperforming products and support inventory management.

**Tools:** Power BI, DAX, Excel, Data Analysis, Jupyter Notebook

### Object-Oriented Hotel Management System (HMS)

[Command-Line Application]

- Designed and implemented a modular menu-driven application in Java incorporating OOP concepts.
- Structured classes for hotel operations, implementing Encapsulation, Inheritance, and Polymorphism.
- Created persistent local storage pipelines using File Handling to write and load booking records.
- Implemented robust exception handling strategies to validate input scenarios and avoid program crashes.

**Tools:** Java, Core Java OOPs, File handling, Collections, Exception handling

## EDUCATION

### Master of Computer Applications (MCA)

Pursuing

Noida Institute of Engineering and Technology (NIET), Greater Noida

### Bachelor of Computer Applications (BCA)

Graduated, 2025 (69.3%)

Mahatma Gandhi Kashi Vidyapith (MGKVP) University, Varanasi

## CERTIFICATIONS

- Introduction to Python – Infosys Wingspan (Nov 2025)
- Linux Fundamentals & Operating Systems – Infosys Springboard (Nov 2025)

## ACADEMIC ACHIEVEMENTS

- Secured a **\*\*Tuition Fee Waiver (TFW)\*\*** merit seat in MCA via CUET PG counselling, awarded to top entrance exam performers.
